Reeflex Welding

To whom it may concern

This letter serves to confirm that Bolt & Engineering Distributors are appointed preferred agents for the Reeflex Range of Inverter Welding machines and Wire feeders.

The Reeflex Range of Welding Machines are totally locally designed and manufactured at our factory in Strydom Park Randburg. The Reeflex Welding machines have been manufactured as per the SANS 60974-1 safety standard specified by the South African mining industry.

All the Reeflex Inverter Welding Machines and wire feeders come standard with a two year warranty, as per our terms and conditions regarding the warranty. The warranty period starts from the date of delivery to the end users. All warranty repairs will be returned back to Reeflex Welding factory for repairs.

Bolt & Engineering Distributors have a fully equipped welding machine repair workshop at their head office in Wadeville and are authorised to repair any Reeflex Welding Machine that is out of its warranty period.

All out of warranty machines that are repaired and returned back to the customers are returned back with a three month warranty on the repairs that have been done to the units.

For any enquires please contact your local Bolt & Engineering Branch

Regards
